

TRAILER CARS TO BE PUT ON NEXT WEEK

Will Be Run By the Rapid Transit Company During the Rush Hours of the Day.

By Monday or Tuesday of the coming week or at the latest by November 1st, the Rapid Transit Company will be running on its main trailer cars, attached to the main cars, during the busy hours of the day.

The trailers have been on hand at the car house for some time, but could not be put on the line before because of the delay in the arrival of trucks and running gear. These arrived some ten days ago by the steamer Californian, and ever since the company's men have been getting the trailers mounted on the trucks. Five of the cars are now mounted and ready to go on the line, except for the wiring, and this is now being attended to. The trailers will be put on during the early morning hours when people are coming down town to their work, and again at the rush of the luncheon hour and at 5 o'clock in the evening until after the rush of the home going is over. Each trailer will seat twenty-four persons, being much smaller than the big tubular cars to which they will be attached, but the capacity of each is something over forty, and the crowding of the cars during the busy hours will be avoided by the added accommodation.

The company also has a number of open cars, slightly smaller than the large tubular cars, which will be put on the line soon during the pleasant weather. It being desired to reserve the big tubular cars for bad weather. The company has been unable to put these cars on up to this time because there have been no fenders on hand for them. The workmen of the company have built some very good fenders themselves, but it was deemed better not to put them to use, and the cars have been held for the new fenders of the same kind as those now being used. A few of these cars may be run on the line, alternating with the present cars, for a few weeks, pending the arrival of the fenders from the mainland. The delay caused by the San Francisco strike has affected the plans of the company considerably, but that difficulty being now passed the Rapid Transit people hope to soon have their perfected plans in operation.

MAUI'S BALMY CLIMATE CONDUCTIVE TO DISCORD

The Taylor Family Troubles Are Aired in Police Court Yesterday Morning.

From the cane fields of Spreckelsville a cloud of domestic infelicity appeared. When first sighted it was of about the dimensions of a cancelled postage stamp. Before the evening session of police court drew to a close the selfsame cloud greatly resembled the ample proportions of a three ringed circus tent.

The airing of the family differences existing between Mr. and Mrs. Hennessey Taylor greatly excited the risibilities of the court room spectators. The parties are people of color, and have but recently reached the shores of Hawaii from the sunny southland. When the pair arrived in the Territory from New Orleans, they were sent to the Spreckelsville plantation on Maui. The balmy climate evidently did not have a soothing effect upon the tempers of the twain, for it was subsequently ascertained that squalls frequently appeared.

The desertion of Mrs. Hennessey Taylor of her spouse some days ago precipitated the storm. A warrant was issued for the southern gentleman's arrest. He was corralled while employed with a local stevedoring concern. Husband and wife appeared in court yesterday morning and lined up before Judge Wilcox.

Mrs. Hennessey Taylor, with blood in her eye, declared that her hubby had acted in a very shameful manner. If the court could exert enough powerful influence upon Hennessey to cause him to be real good, Mrs. Hennessey Taylor believed that she might be induced to again live with him. It was contended that the ladder of the Taylor household was generally in a very depleted condition.

"I've only got fifteen cents to my name at present time, your honor," stated Taylor, when asked by the court why he was not a more liberal provider. "I give that woman all I can. I die on Youse can't eat pork chops and apple sauce every day on what you make on that plantation. No, indeed. I spects what's good 'nough for me is good 'nough for her."

A little good advice was administered by the court. The ruffled feelings of both factions of the Hennessey Taylor household were slowly but surely again united. Their adjustment of several minor differences in open court was good enough for the basis of a laughable sketch. The reconciliation followed and the charge of desertion was wiped off the slate. Mr. and Mrs. Hennessey Taylor thereupon walked down the aisle arm in arm. They were still discussing the division of the fifteen cents as they faded from the station house.

PUTTING UP A GOOD ARGUMENT

The LA INSULAR OF AMERICA cigar is unlike any other 5c. cigar as regards SHAPE, QUALITY, and WORKMANSHIP. The smoker notices its distinctiveness and likens it to the MANILA of old. The American Insular is made of a blend of tobacco particularly desirable for this climate, in a factory where personal cleanliness is exacted.

It has that MANILA flavor and effect so desirable in the tropics.

We give each dealer a guarantee whereby he may return the cigars anytime within one year and receive purchase price paid in full. Dealer can't get stuck, can he? If out of town buyers return them we will pay freight charges. Not much risk there either. But don't think that a cigar which we unconditionally back to this extent everywhere is anything like the cigars made by manufacturers generally. It is altogether different.

It will cost the dealer a little more because it costs us more, but any dealer who has sold the La Insular of America will tell you it is his leader today.

The trade name is registered by us at Washington, D. C. The labels purchased by us of the Lithographer and the cigars made under our personal supervision to order. It has taken one year to produce this brand. It is a PERFECT smoke.
